Shuttle Pots A whole other dimension to delivery and display

Shuttle® Squares

Like Shuttle® Pots, our Shuttle Squares are designed to withstand whatever the grower world dishes out. They have the same strong rims and sturdy shoulders for quick de-nesting and trouble-free use in automated systems, a smooth, seamless finish to make plant removal a snap, and can be labeled.

Pot Carriers

Available in both round and square styles, our Pot Carriers are a convenient way for both growers and retailers to move crops. Their rigid construction provides secure transport, while their multi-pot design offers a fast and efficient way to move pots around the store.

- Pot Carriers for SS 325's offer many options, including carriers designed for 12, 18, or 20 pots.
- Sturdy and consistent wall thickness adds durability.

Shuttle® Squares

Item	Description	Width	Height	Liquid Volume		Packaging
