Space-Saving Footprint

T Series, or "true" flats and inserts, utilize a space-saving 10" x 20" footprint. However, they have virtually the same soil volume as the A Series insert, because the T Series inserts are a full 3/8" deeper. The result is more flats per bench, cart, truck and retail facing.

- Using attention-grabbing tags in the built-in tag slot is an excellent way to display information to the retail customer or highlight programs.

Straight-sided inserts are excellent for adhesive labeling, providing varieties, care instructions, and UPC codes.

T Series Flats

Item	Economy Weight		Standard Weight	
	No. Per Carton	No. Per Pallet	No. Per Carton	No. Per Pallet

KEY:

H = High; HR = High Rib; LS = Label Side; OSR = Offset Rib; R = Rectangular; S = Semi-Cell; SCC = Special Cell Configuration; SCR = Single Center Rib; SS = Soil Saver; T = Triangular

Flats and inserts with handles make it easy for consumers to opt for multi-plant sales.

Square Press-Fit pots are available in the T-Series footprints.
